

## The Spirit of Philanthropy & Service

As fraternity and sorority members, we define *philanthropy and service* as:

- How we connect with causes
- How we get involved with causes
- How we support causes

**Our motivation comes from:**

- Passion to help and be a part of something bigger than ourselves
- Meeting people with similar values and motivations
- Enhancing our expertise and lending knowledge, time and using our personal background and skills

We and our fellow SDSU students are philanthropic. As a community (Greek and SDSU) we believe we have the responsibility, power and opportunity to employ philanthropic efforts that benefit causes that speak to us!

**We do philanthropy by giving of our:**

- Time - selflessly given
- Talent - using our knowledge, background and skills
- Treasurer - financial contributions
- Voice - time spent advocating and educating others about a cause, aligning ourselves with a cause, and getting others involved
- Network - leveraging our personal and professional networks to benefit a cause, expose others to a cause

*Based on "How Millennials are Changing the Definition of philanthropy" written by Derrick Feldmann on behalf of the CASE Foundation.*
